to get involved

## What is a play street?

A Play Street can be created when a road is closed off to traffic for up to three hours, up to four times a year. This is so that children can have a space to play freely and safely right outside their homes.

## Why have play streets?

- They transform streets into vibrant, safe space where people come together
- They promote physical activity, social interaction and a sense of belonging
- They allow children and adults to get to know their neighbours
- They provide a good example of what active citizenship can achieve
